## Tactical Deployment Solutions

Providence are pleased to announce that a new Tactical range of deployment kits are available. After careful consultation with the end user community it has been decided to produce a more cost effective and practical solution. As with all Providence deployment solutions the different kits have been carefully constructed to maintain maximum deployment techniques covering the full range of tactics. All kits are backwards compatible and can be interchanged as required.

Further details on the capabilities are available on request.

### Operational Drilling Pack (TKB003)

### Personal Issue Kit (TBK002)

### Tactical Installation Kit (TBK001)
